

FOR THE LOVE OF MUSLIMS

Lessons for Online Missionaries dealing with Muslims

Lesson 33: GMO Templates

In this training series, we have addressed a number of issues that seekers frequently email about. We hope you are now better prepared to respond to the emails you receive from Muslim internet contacts.

While we have only touched on a few topics in this training, the GMO website has many email templates you can use to help you answer the emails you receive. Be sure you utilize this amazing resource! The templates usually include some Bible verses pertinent to the topic and some thoughts on what to say to a seeker.

Log into your account at: www.gmovolunteers.com. Choose the “Response Aid” tab and browse the topics listed there. You can search for a template according to the specific topic you are addressing, or you can look at the FAQs, which include other topics.

There are also some resources and templates for Muslim and Hindu contacts at www.nayajeevan.org/templates.
